

Audit Committee Charter

I. PURPOSE & AUTHORITY

The Audit Committee is a committee of the Board of Directors. The primary function of the Audit Committee is to fulfill its oversight responsibilities relating to the quality of financial reporting and internal controls. Consistent with this function, the Audit Committee should encourage continuous improvement of, and should foster adherence to, the Association's policies, procedures and practices at all levels.

While the Audit Committee has the powers set forth in this charter, it is not the duty of the Audit Committee to plan or conduct audits, or to determine that the Association's financial statements are complete and accurate, and are in accordance with generally accepted accounting principles. This is the responsibility of management and the independent accountant. However, it is the responsibility of the Audit Committee to ensure reasonable steps are taken by management to ensure the accuracy of financial reporting and adequacy of the institution's system of internal controls.

The Audit Committee's primary duties and responsibilities are to:

- Determine the selection of the independent examiner retained to perform an internal credit review and the scope of such services. The independent examiner shall report directly to the Audit Committee.
- Determine the selection of the independent party retained to conduct a collateral evaluation review and the scope of such services. The independent reviewer shall report directly to the Audit Committee.
- Serve as an independent and objective party to review the financial information and internal control assertion presented by management to the shareholders, regulators and the general public.
- Provide oversight at the highest level of the Association's internal controls, and pursue a focus by the board of directors and management to ensure internal control mechanisms are sound, preventative, detective and function efficiently.

- Monitor the Association's compliance with legal and regulatory requirements.
- Review and supervise the internal audit function.
- Provide an open avenue of communication among the independent accountants, financial and senior management, the internal auditor, and the board of directors.

The Audit Committee will fulfill these responsibilities by carrying out the activities and processes enumerated in the following sections of this charter. In doing so, the Committee has full access to all books, records, facilities and personnel of the Association, and the power to retain outside counsel or other experts considered necessary in discharging its oversight role including retaining services for training on industry best practices. A two-thirds majority vote of the Board of Directors is required to deny request for resources.

II. COMPOSITION

The Audit Committee shall be comprised of at least three directors as determined by the full Board. Each member shall be free from any relationship that, in the opinion of the Board, would interfere with the exercise of his or her independent judgment as a member of the Committee. Members of the Committee should be knowledgeable in public and corporate finance, financial reporting and disclosure or accounting procedures. The Committee must have one financial expert.

III. MEETINGS

The Committee shall meet at least four times annually, or more frequently as circumstances dictate. As part of its job to foster open communication, the Committee shall meet as often as needed, but at least once per year with management, the internal auditor and the independent accountants in separate executive sessions to discuss any matters that the committee or any of these groups believe should be discussed. Meetings may be called by the chairman of the Committee or by the chairman of the Board.

These meetings should be attended in person if possible; however, use of telephone and/or video conferencing may be used as well as determined appropriate by the Committee.
